Scrimba Front End Career Path

## TECHNICAL EXPERTISE

HTML, CSS, Responsive Design,  
TailwindCSS, JavaScript, React, Next,  
Firebase, GIT, Object-Oriented  
Programming, APIs, Figma, Adobe  
Illustrator, Adobe Photoshop

## PROFESSIONAL SUMMARY

As a front-end developer with a unique background as a house painter, I bring valuable skills such as attention to detail, time management, problem-solving, and adaptability to web development. I'm passionate about learning and staying up-to-date with emerging technologies and best practices. I'm dedicated to writing clean, maintainable, and scalable code that follows industry standards, and I'm able to work independently and collaboratively with strong communication and interpersonal skills.

## SOFTWARE PROJECT EXPERIENCE

### Elden Ring Build Planner

- Using the open-source Elden Ring REST API, making calls to pull game data.
- Using ReactJS to create logic and display the received data.
- Solving the issue of helping users determine their build path.

### Bloodbath & Beyond - digital storefront

- Created and designed a RPG merchant storefront
- Using React and javascript to implement the logic.
- Utilizing custom hooks and useContext to better manage my state
- Showcasing my ability to create real world applications.

### Quoted

- A full stack application using next.js firebase and firestore.
- A platform for users to sign in, create a profile, update said profile and create posts, like posts, and delete their own posts.
- Proving my ability to create real world applications with user authentication.

### Random Password Generator

- Created and designed a random password generator
- Using Javascript to create logic and give the user 4 passwords to choose from. Allowing the user to choose between using letters, symbols, numbers or all three.
- Solving the issue of helping users create safe and secure passwords.

## WORK EXPERIENCE
